Eye protection :	Use eye protection designed to protect against liquid spray.
Skin protection :	After contact with the product, all soiled parts of the body must be washed

9 - PHYSICAL AND CHEMICAL PROPERTIES *

Form :	Paste
Colour :	White
Odour	Weak
pH :	around 9,4
Freezing :	Approximately 0 °C
Boiling :	Approximately 100 °C
Flash point :	Not concerned (aqueous product)
Bulk density :	Approximately 1.5
Solubility in water :	Dispersible (in all proportions)

10 - STABILITY AND REACTIVITY *

Stability :	Stable at ambient temperature and in normal use conditions.
Dangerous reactions :	No dangerous reactions in normal conditions of storage. No Dangerous decomposition products in normal conditions of storage.

11 - TOXICOLOGICAL INFORMATION *

No data on the preparation itself is available. The preparation was examined according to the conventional method of the Directive on Hazardous preparations 1999/45/CE and not classified.

12 - ECOLOGICAL INFORMATION *

No data on the preparation itself is available. General information :	Do not discharge the product in sewers or waterways. No effects on environment to fear when the product is used according to current directives.
--	--

13 - DISPOSAL CONSIDERATIONS *

Product : Recommendations :	Do not discharge the product in sewers or waterways Respect the local current regulations. Discharge with rubbish. Sewage water must be decanted before being evacuated.
Packaging :	Recyclable. Disposal in accordance with legal regulations. Dirty packaging : draining treatment.

14 - TRANSPORT INFORMATION

This product has not been classified according to regulations land transport RID / ADR, maritime transport IMDG, air transport ICAO / IATA.

15 - REGULATORY INFORMATION *

This product is not labelled as a dangerous substance according to Directive on hazardous materials 1999/45/CE.

16 - FURTHER INFORMATION

Recommended uses (for more details, please refer to the technical data sheet) :

Users' conditions of work not being known to us, the information given in the present safety data sheet is based on the our present knowledge and on both national and EC regulations.

This sheet completes the technical instructions for use, but does not replace them. The information it contains is based on our present knowledge relating to the product concerned, on the date indicated and are given in good faith. Moreover, users' attention is drawn to possible risks incurred when a product is used for other purposes than those for which it is designed.

It does not, in any case, exempt the user from knowing and applying all texts governing his activity. It is his responsibility, and his alone, to take all necessary precautions linked to the use he makes of the product.

The information given in the present sheet should be considered to be a description of the safety requirements relating to our products and not as a range of the properties of this.

The user is not in any way dispensed from finding out and implementing all the texts governing its activity. The user will be solely responsible for taking all the necessary precautions associated with the use he makes of the product.

The information given in this leaflet must be considered as a description of the safety requirements relating to our product, and not as a range of the product's properties.
